ACTIVITY: LETTER

October 2 of 2020.

Good morning to all the student community, I really hope you're doing fine. I'm Fernando, part of the organizing committee, and the main purpose of this letter is to invite you to a charity event that will take place at the college campus.

Who are we? We are "being all connected makes live better" What we are looking for this charity event are donations like something used but functional or money. This event will consist to support local schools which doesn't have the necessary lab equipment that they need to continue with their classes due to the flood that occurred last week.

It doesn't matter the amount of money you give as long as you help the schools in need and share this information to more people.

Have a nice day! I hope to see you there!
